Total employees

REEL SAS : 1000
REEL Group : 1600

Turnover (2011)

REEL SAS : 185 M€
REEL Groupe : 340 M€

Certifications :

- ISO 9001 V2000
- CEFRI
- Cas1 EDF NT 85115
- DIN 18800
- KTA 1401
- HAF604 (China)

Application of construction
Codes : RCC - ASME - KTA

NUCLEAR ACTIVITIES

Design, manufacture and service of lifting & handling equipment for nuclear facilities : NPP ; Nuclear fuel fabrication plant ; Enrichment plant ; Reprocessing plant ; Radioactive waste storage centers ; Research reactors.

- Fuel Handling System for PWR : 66 Refueling Machines in operation. REEL supplier of FHS for the EPRs (OL3 in Finland, FA3 in France and Taishan 1&2 in China)
- Mast bridges and pole cranes for spent fuel pools
- Special handling cranes with various grab mechanisms for radioactive waste drums
- Remote handling and lifting equipment in hot cells for Fuel inspection systems
- Process equipment with glove-boxes and remote handling technologies
- Polar cranes (NPP and research reactors : LMJ,...)
- Overhead and gantry cranes for the handling of radioactive material
- Underwater fuel storage racks (Borated Stainless Steel - HD Racks)

Fabrication of mechanical parts (Stainless Steel) and precision machines for nuclear & physic applications

- Internals for NPP's Reactor Pressure Vessel (Control Rod Guide Tubes, support columns, ...)
- Components for research reactors and laboratories (Megapie Target ; Remote Handling Tools ; Inspection machines)
- Containers and casks for nuclear fuel and waste transportation (FCC, FS65, MX8/MX6, Nuhoms types)
- Vacuum chambers (Laser Chains for the LMJ), AIR LIQUIDE, CEA, CERN, LINDE, EADS...
