Total employees : 890

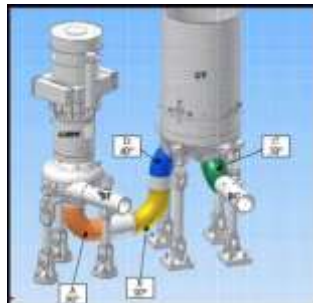

2012 Turnover : 72 M€

Certifications :

- ISO 9001 version 2008
- CEFRI-E
- CAEAR 4.2
- Cas 1 EDF
- CD

- Proximity design offices, multi-technical studies
- Calculations & digital simulations
- Installation and equipment design
- Project management, planning
- Intervention, investigation and measurements on plants
- Development of application software for planning on OPX2
- Nuclear dismantling
- Risk & safety analysis, Atex
- Quality, safety and environment studies on industrial sites
- New works engineering
- Modification & maintenance engineering
- Delegated exploitation of facilities services
- Work and QSE coordination and supervisory control
- Specialized training, Radioprotection
- Coordination & monitoring of work

## ACTIVITIES

SOM, an Ortec group subsidiary, supports your innovation process by means of design and installation studies, modelling and 3D simulations, and sizing studies.

## MARKETS

- EDF
- AREVA
- CEA
- DCNS
- ALSTOM
- Alenia Space
- SBM
- RATP
- SNCF
- TECHNIP
- TOTAL
- INEOS
- EXXON
- RATP
- BP
- ...

## MAIN EQUIPMENTS

- 6000 m<sup>2</sup> of offices,
- Mechanical calculations and digital simulations software: EFFEL, IDEAS, PIPESTRESS, ANSYS, LS-DYNA,...
- Hydraulic and thermal calculations software: FLOWMASTER, IDEAS (ESC/TMG), LMS Amesim, ...
- Computer aided design and drafting software: AUTOCAD, SOLIDWORKS, CATIA, PDMS...
- Radioprotection software: MCNP, MICROSHIELD, DOSIANA...
- Planning software: PROJECT, OPX2
